I am nearly fifty years old, was always a farmer, as were my ancestors as far back as I can trace them. My opinions are formed on experience, and experiments satisfy me, whether they do to others or not.

OPINION I. Hay should be cut when in full bloom, as all plants contain most saccharine matter then, and consequently are more nutricious if used for food. If hay is left later, the sugar turns to woody fibre. Wood and sugar chemically the same.

II. All heavy and clayey soils should be plowed in autumn, so that the frosts of winter may pulverize them and kill the germ of insects deposited in the sod for the next

III. The best way to raise calves is to take them from the cow as soon as dropped; if possible, never let them suck, as they learn to eat or drink sooner, and there is no sore tests from biting, and the task of weaning the cow is soon over. I put them in a place where they are sheltered from sun and rain, give a good bed of straw, and feed three or four quarts of new milk per day until three weeks old, then feed skim milk warmed. Let them have access to hav or grass. By this method I have raised calves every year since I can remember, and never lost one in my life.

IV. Nine-tenths of our farmers do not sow enough hay seed to the acre, I have kept on increasing the amount and have not found a stopping place. The more seed the more and better the hay; if timothy and clover, up to a half bushel per acre. If the surface of the ground is completely covered the hay will be fine, and no weeds can grow. I have choked out Canada thistles with timothy and clover seed sown as thick as "hair on a dog," so as to form a good firm sod the first summer. Sow early in spring or else in February.
V. Oats should be sown very early, as

early as possible. I saw a good crop raised that was sown in February, and was not harrowed but snowed or rained in.

VI. Cooking food for hogs is better than doubling the same amount, if fed raw, if you wish to fatten. For breeding, feed

or if you do you may be sure you are losing address.

Address.

Bloomstorg, Sept. 19, 1966.

P. C. EVER. Secty.
Bloomstorg, Pa. the nutriment there is in the grain.

IX. I believe cornsole, ground with the corn, useful as residual matter, and also contain sugar enough to pay for feeding, if cooked or scalded. In Chicago, Ill., they make a good vinegar from sweet extracted

ears as rapidly as possible, throwing them into the wagon; this saves carrying or handling over, not being particular about taking of all the busks; secure your corn taking of all the busks; secure your corn in any convenient place until winter; a pen of rails will answer. The basks that remain will keep the corn from spoiling in the crib. When you wish to market your corn, put it on a floor, thresh with horses, the husks will not be in the way, take off. run through a mill, and your corn will be bright and clean, and in first rate condition Two men and a boy can pick and crib two hundred bushels of ears in a day.

My opinion is, if farmers will adher strictly to these rules, they may save half. their labor, and have better crops. This is quite an item. Try it .- Michigan Farmer.

GROUND FOOD FOR STOCK. -- Few per sons seem to be aware of the importance of grinding every variety of grain before feeding it to animals; it is all important. There is no animal's stomach that can digest any variety of grain with a cortical covering. All animals that swallow a single kernel without erushing, void it whole; and what is singular, after passing the ordeal of the gastrie, the heat and digestive organs of the stomach and the whole intestinal canal,

the seed will still germinate and grow. In feeding horses and cattle, for simply carrying them through the winter, if what grain they are entitled to was ground, and the hay or straw cut, mixed and properly moistened, the saving would amount to quite an item-every inch of hay or straw will be eaten, and nothing lost. Two-thirds the quantity now fed in racks for horses to pull under their feet, and that fed to cattle on the ground, and trodden down and spoiled. would suffice to carry stock through the winter. But habit is everything .- Exchange.

RENEWING GRAPES. - People hear much about the "renewal system" in grape-growing, and from the high-flown tone in which professional writers speak could never understand what it means. It is simply growing fruit every two or three years or less from new vines, sprouting out low from the parent vine, and removing the latter. Undoubtedly larger and better grapes can be obtained by this system than from the old method of dedending on the old vine.

SEEDS OF WILD PLANTS. - Those who wish to introduce the early flowering wild plants into their grounds, should look out for seeds as soon as they ripen, and if it is desirable to remove the roots, put a mark of some kind near the plant, so that it will be seen when the folinge is dead.

E. W. Stewert, writes to the Ameri can Farmer that after an experience of more than ten years, he finds two bushels of steam bay is worth three bushels of unsteamed. and that one quart of commeal steamed with a bushel of strew is equal to a bushel NEW RESTAURANT,

In Bhive's Building, on Main Street. WM. GILMORE, the citizens of Bloomsburg and vicinity the opened a New RESTAURANT,

BROWN & PERKINS. Pianos for the People!

420 Broome St., N. Y.

We would call the attention of the public and the trade to our elegant hew Scale Pianos, in the following styles:

SYYLE A, 7octave, Front large round cerents, plain case, either outagon or carved legs, straight bottom, bead woulding on pinth...\$450

STYLE B, 7 octave, asme as style A with serpentine moulding on pith carved legs and tyre. 200

STYLE B, 7 octave, same as style A with serpentine moulding on pith carved legs and tyre. 200

STYLE D, 7 octave, Front corners large round serpentine bottom, mouldings same as on style

D, carved tyre and desk, fancy carved legs... 550

STYLE D, 7 octave, Four large round corners, finished back, mouldings on rim and plinth, serpentine bottom, carved tyre and desk, eiegant carved truit legs... 600

The above styles are all finished in elegant rose-wood cases and have the full fron frame. French action, harp pedal, beveled top, twory keys and key fronts and exceed in overstrang bass, as arly all the 7 foctave flanos now manufactured. They are made of the best materials, and for finish, durability, purity and sweetnes of tone, caunot be surpassed. We invite the attention of the public, of dealers and the profession, to a critical examination of the merits of our Pianos.

By avoiding the great expenses attendant upon

in profession, to a critical examination of the increis of our Pianos.

By avoiding the great expenses attendant upon coally factories and expensive warerooms in the city, we are enabled to offer these Pianos at prices which dely competition, and invite all to call and examine them before purchasing elsewhere. Parties ordering from a distance can rely upon receiving their fianos promptly, and no confusion can arise as the styles are so distinctly designated by the intera A B C B.

The four styles described above, embody all the examinated changes in exterior finish of case, which are by many manufacturers run up to 15 and 20 patterns.

MUSIC DEPARTMENT. We would respectfully call the attention of Chor-lemsters and Sugging school Peachers to our estab-lishmen, where all kinds of Church Music, Give and Anthem wooks can be obtained on the most fayorable

Attention worse cause of our Mr. Pannins in Musical Conventions, Choirs, the Concert Room and Sundy-School, enables him to give advice and information on all points of musical interest as to the selection of proper works of instruction, formation of musical schools—progress in musical studies, and it ms of general interest to composers, leaders teachers and contents.

BEALE'S LATE

POWELL'S EMBROCATION. FOR ALL DIZEASES INCIDENT TO HORSES CATTLE, AND THE

HUMAN FLESH,

requiring the use of an external application.

This new Compound, prepared by a practical Chemist, haing a full knowledge of all the medical virtues of each ingredient that enters to its composition, is warranted to exceed anything of the kind ever yet othered to the public as an external application for the diseases for which it is recommended. We are studied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by

The TRIBING and all whe have tried it, to be the best application ever used. This Embrecation has been put up for over right years, and it is only through the increasing domand and targent request of my triends and the public that I send it forth as the grand remedial agent for the various discars to which that mobile and useful arimal, the horse is subject.

Many remedies have been offered to the public upder different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are proper to answer the purposes for which they are recommended.

A judicious and really useful composition, free trem those objections, has heretofore long been desired by many gentlemen who have

VALUABLE HORSES. and are unwilling to trust them to the care of designing and pretended Farriers. Their wishes are at length fully gratified, by (Or. Beate) being prevailed upon to allow this valuable Embrocation (which has proved so efficielous to the various diseases) to be prepared and brought out to the public.

This Embrocation was extensively used by the Government during the war.

Address all order to DR. EDMOND BEALE, 60% South Second St. Philadelphis, Fa. Murch 20, '67—6mo.

GO TO BROWER'S TO BUY YOUR BOODES.

NEW COAL YARD.

The undersigned respectfully informs the citizens of Bluomeburg and Columbia county, that they keep all the different numbers of stoce coal and selected lump cond for simplifing purposes, on their wharf, adjoining McKelvy, Neal & Go's Purinae; with a good pair Buffalo scales on the wharf, to weigh read hay and straw. Likewise a horse and wagon, to deliver coal to those who desire it. As we purenase a large amount of coal, we totend to keep a superior article, and sell at the very lawest prices. Please chit and examine for yourselves before purchasing elsewhere.

She reveals se-cretain unital-wer how. She reveals se-cretain unital-wer how. She reveals se-reaces in love, lose of relation, and friends, less of money. Am. have become step-ordent. She brings together those long separated, gives information con-cerning absent friends or lovers, restores not o-stolen properly, fells you the business you are best qualified to pressue and in what you will be most suc-cessing changes speedy marriages and tells con-tactly and the second section. qualified to pursue and in what you will be most one coseful, caused speedy anarrises and tells you the very day you will marry, cives you the name. like measured the marry of the person. She reads your very thoughts, and by her almost supermaring powers tavell the dark and hidden mysteries of the future. From the stars we see in the farmament—the undefic stars that overcome or predominate at the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astralogist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee with likeness and all desired information, 31. Parties living at a distance can consult the Madame by mult with equal sofety and satisfaction to themselves as if in person. A full and expired that, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. cut by mail on rec ipt of price above incurioned,— the strictest secrety will be maintained and all cor-sepondence returned or destroyed. References of the highest order furnished those desiring them.— Write plainty the day of the month and year in which year were born, earlissing a small lock of hair Address, MADAME H. A. PERRIGO, Peb 27 '67-'y P. O. Brawer 293, EuG ato, N. Y.

REPARATOR CAPILLI.

Throw away false frizz's your switches, your wig; bestructive of comfort, and not worth a fig; Come aged, come youthful.come ugly and fair, And rejoice in your own luxuriant hair.

REPARATOR CAPILLI. REPARATOR

For restoring hair upon hald heads (from whistever cause it may have failen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon half heads in from two to three months. A few ignorant practitioners layer assected that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are failes, as thousands of living writesses (from their experience) can bear winess. But many will say, how are we to distinguish the genomic from the spurious I It certainly is difficult, as nine-tenths of the different Preparation advertises for this hair and bearst are entirely worthess, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilit, it will cost you nothing unless it fully comes up to our expressinations. If your Orugrists does not keep it, send us one dollar and we will forward it, pestpad, thogether with a receipt for the money, which will be returned you on application, providing entire sainfaction is not given. He has had in his long experience in the business remarkable success. Those wishing anything dope in his time would do well to give him a trial. Blogmaburg June, 12, 1867, WILLIAM ROGERS,

Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervads the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whateve be its origin, it is hereditary in the constitution, descending "from parents to childred unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lange, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have fur less power to withstand the attacks of other diseases; consequently, vast numbers perials by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate

To cleanse it from the system we must renovate
the blood by an alterative medicine, and invigorate it by healthy food and exercise.
Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Enterres and Sett Diseases, St. Anthony's Firs, Rose, or Environment, Pinyles, Publicies. and Seth Diseases, St. Anthony's Fire, Rose, or Envirence, Pintles, Publics, Blatches, Blatches, Blatches, Blatches, Blatches, Blatches, Scald Head, Ringuist, and Salt Rheun, Scald Head, Ringuist, and, indeed, all Complaints anising from Vittated on Impurity of the blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapatilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. contaminated constitutions.

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or playsical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furtish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Hearthurn, Headacha arising from disordered Stomuch, Nausea, Indigestion, Pain in and Morbid Inaction of the Bones, Fiatulency, Loss of Agustic, Jauadice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral. FOR THE RAPID CURB OF

Coughs, Colds, Influenza, Hoarsences, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease. So wide is the field of its usefulness and so nu-

merous are the eases of its cures, that almost every section of country abounds in persons pubevery section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climats. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced curves too numerous and too remarkable to be forgotten.

PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS.

Sold by all Druggests in the Country. May 22d-1y. ORANGEVILLE HOTEL.

COLUMBIA COUNTY, PENN'A. ISRAEL MUMMEY, PROPRIETOR.

(SUCCESSOR TO SAMUEL EVERETT.) is UCCESSOR TO SAMUEL EVERETT.)
has lately taken charge of this well known and conveniently because stand, respectfully informs his sid friends, as well as new, and the public in general, that his house is in complete order for the accommodation of boryders, and for the reception and entertainment of travellers who may feel disposed to favor him with their custom. No expense has been spared in preparing this Hotel for the entertainment of pusts, and nothing about he wanting, on his part, to intrister to their personal comfort. The location, as well as the building, is a good one, and nil together is amply arranged to picase the public.
